Escenario:

You have just moved to Quito and your friend from childhood who lives in _____ invited you to stay with him/her for a week during your summer vacation. You really want to go and you want to be prepared when your parents ask you how you are planning to get there. Research how to get to _____ **by bus**. Also, in order to impress your parents, you decide to find information about the **geographical features** and **cities** along the way, **how long** it will take you to get there, **how many kilometers** away it is, **alternative routes** in case the road is closed, etc. You even decide to show this information on a **map!**
