

VU Center Numbering Scheme

All Center Numbers have ten digits. The digits are grouped to indicate:

(i) the type of fund (1st digit) , (ii) the division of the university (digits 2-3) , (iii) the department in which the center resides (digits 4-6), and (iv) the final identifying group (digits 7-10)

In case of designated funds (a.k.a. "restricted funds") -- those with first digit equal to "4" -- the final identifying group is subdivided into two groups:

(iv) the agency providing the funds (digits 7-9) and (v) the method by which the agency is billed (digit 10)

Exception : In University Central, internally designated funds are denoted by Department digits DDD = 999, and the last four digits serve only as center identifiers
