Conference on Econometrics
and
Models of Strategic Interactions

Co-sponsored by the Vanderbilt University Department of Economics and
CeMMAP at University College London

April 21, 2017
Sarratt Student Center 325/327
Vanderbilt University

8:15-9:00 am  Breakfast and coffee

Session 1  Chair—Tong Li (Vanderbilt)
9:00-9:45  Andrew Chesher (UCL), “Generalized Instrumental Variable Models”
9:45-10:30  Whitney Newey (MIT), “Locally Robust Semiparametric Estimation”

10:30-11:00  Coffee Break

Session 2  Chair—Atsushi Inoue (Vanderbilt)
11:00-11:45  Bryan Graham (UC Berkeley), “Homephily and Transitivity in Dynamic Network Formulation”
11:45-12:30  Konrad Menzel (NYU), “Strategic Network Formulation with Many Agents”

12:30-1:45 pm  Lunch

Session 3  Chair—Mototsugu Shintani (Vanderbilt)
1:45-2:30  Sukjin Han (UT Austin), “Multiple Treatments with Strategic Interaction”

3:15-3:45  Coffee Break

Session 4  Chair—Andrew Chesher (UCL)
3:45-4:30  Tong Li (Vanderbilt), “A Partial Identification Subnetwork Approach to Discrete Games in Large Networks: An Application to Quantifying Peer Effects”
4:30-5:15  Xun Tang (Rice) “Identification and Estimation of Large Network Games with Private Link Information”

6:00  Dinner at Watermark Restaurant (Invitation only)
