Note: In April 2015, the AAMC launched a new version of the MCAT exam. Scores are reported in four sections: 1) Chemical and Physical Foundations of Biological Systems (CPBS), 2) Critical Analysis and Reasoning Skills (CARS), 3) Biological and Biochemical Foundations of Living Systems (BBLS), and 4) Psychological, Social, and Biological Foundations of Behavior (PSBB). Because of this change, the 2016 MCAT scores are not comparable to previous years. In 2016, 45.9% of the applicants applied with scores from the 1991 version (the old version) of the MCAT® exam only. Additionally, 52.4% of the applicants applied with scores from the new MCAT® exam (20.0% applied with scores from the old exam and the new exam, and 32.4% applied with scores from the new exam only).

Cells with dashes contain fewer than ten observations, and blank cells contain no observations.
