CURRICULUM COMMITTEE REPORT TO THE FACULTY

New Course in Anthropology
*Student Option
Intended Term: Summer 2013
Word count: 45
Instructor: Dr. Netherly

ADD:

**Anthropology 244. Social and Health Consequences of Pandemics.**

Origins, spread, mortality, and biological and social consequences. The epidemic of bubonic plague in the 1300s, known as the European Black Death. The devastation of indigenous New World populations by European diseases after 1492. Social and medical responses to these two pandemics. Implications for modern societies. [3] (SBS)
