>Dear Jonathan -

On December 1, 2006, on an email ballot, the CEP voted unanimously to approve the proposed revision of rules for the interdisciplinary CST major. The only additional change recommended by one member of the CEP at that time was to copy the last sentence from the Natural Science description and add it to the end of the Engineering description since the same issue applies. This suggestion was not revoted on by the CEP members, so the call for additional tweaking of this proposal is at the discretion of the Faculty Council.

Most humbly
Terryl Hallquist

Jonathan - if this tagged on suggestion complicates you sending it forth to the FC then just disregard it. It could always be suggested at a faculty meeting when we vote on the approval.

Let me know if there is something else you need from me regarding this proposal.
